Piano Motion Symbols

Introduction

This is an idea for a notation for that might extend fingering notation from just numbers to additional symbols, indicating how the hands and body might move.

I hope this might help create awareness of the body and help with piano technique.

Piano playing may involve:

- position, move, spread, turn, press, stress or hold stationary
- fingers, wrist, arm and torso
- in x, y or z directions.

Not all body parts or motions seem equally involved.

These symbols aim to be a quite literal representation of body and motion, while still schematic and hopefully not ambiguous.

Basic Elements

	Finger		Move		Press
	Fingers		Spread		Loose
	Wrist		Turn		Tight
	Torso / arms		Stationary		Slightly (braces)

Three Dimensions

Depicting things in 3 dimensions, the symbols may be like looking down at the hands in a sort of perspective projection. To represent depth, diagonal lines might be used. Here is how some things might work in 3 dimensions:

 Move left / right

Turn right & left / looking down

Move forward / backward

Turn forward / backward

Move down

Turn right & left / looking forward

Move up

Turning

Turn right
(looking down)

Turn left
(looking down)

Turn right
(looking forward)

Turn left
(looking forward)

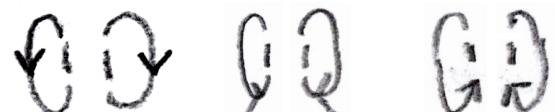

Turn left / right
(looking forward)

Turn forward

Turn backward

Turn forward / backward

The dashed line may depict it being further away.

Turning Arc

Nuance

Nuance, like press *a little* or move *a lot*, may be written down like this:

	Restfully	Slightly	Normally	Exaggerated
Press	↖	(↖)	↖	↖↖
Move	↖	(↖)	↖	↖↖
Tight Wrist	>˘˘<	(˘˘˘)	>˘˘˘˘<	>>˘˘˘˘<
Loose Wrist	'˘'	('˘')	'˘'	"˘"

Tension & Release

→	Reach sideways	Then let go, move hand back.
←	Reach sideways	Then let go, move hand back.
↔	Spread	Spreading fingers wider. But trying to release soon.
↑	Reach forward	If arpeggiated, might prefer crossing over instead.
↓	Reach backward	If arpeggiated, might prefer crossing over instead.
↔↑	Spread diagonally	Composite of spread sideways and reach forward.
█	Arm press down	Pressure coming out of the arm.
—	Hand resting on keys	
≡	Hand resting on lap	

Jumps

	Hand upward (right view)
---	-----------------------------

	Hand upward (left view)	
	Gravity assist (right view)	Falling down with gravity.
	Gravity assist (left view)	Falling down with gravity.
	Bowy jump (sideways)	
	Controlled jump (sideways)	Though grace might desire a bowy move, a jump may be rather big, and might need some control, so perhaps move toward first, then press.

Cross Over

May feel semi-smooth.

	Cross over (large)		Thumb under finger / right hand		With wrist turn (thumb under finger / right hand)
	Cross over (small)		Finger over thumb / right hand		With wrist turn (finger over thumb / right hand)
			Thumb under finger / left hand		With wrist turn (thumb under finger / left hand)
			Finger over thumb / left hand		With wrist turn (finger over thumb / left hand)

Fingers

Finger Position

	Curved / High Fingers	Pronounced Fingers	Flat Fingers (Upward)	Flat Fingers (Downward)
1 Finger (Left)				
1 Finger (Right)				
2 Fingers				
3 Fingers				

	Curved / High Fingers	Pronounced Fingers	Flat Fingers (Upward)	Flat Fingers (Downward)
4 Fingers				
5 Fingers				

Fingers Stationary

	Curved / High	Pronounced	Flat	Number
Fingers Stationary (left / right / 1 finger)	17/	17/	11/	14/
Fingers Stationary (left / right / 3 fingers)	13/	177/	17/	
Fingers Stationary (up / down / 1 finger)	1	2	3	4
Fingers Stationary (up / down / 3 fingers)	13/	17/	14/	
Fingers Stationary (forward / backward / 1 finger)	1	2	11	14
Fingers Stationary (forward / backward / 3 fingers)	13/	17/	14/	

Finger Move

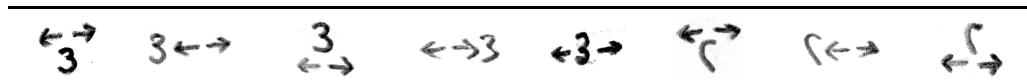

Finger move (right)

Finger move (left)

Finger move (right / left)

$\leftarrow\overrightarrow{3}$ $\leftarrow\overleftarrow{3}$ $\leftrightarrow m$ $\overleftarrow{\overrightarrow{3}}$ $\overrightarrow{\overleftarrow{3}}$ \overrightarrow{m} $m \leftrightarrow \overleftarrow{3}$

Finger move (forward)

Handwritten symbols for finger turns (right, looking down) arranged in three rows:

- Row 1:
- Row 2:
- Row 3:

Finger turn (right / looking down)

Handwritten symbols for finger turns (left, looking down) arranged in two rows:

- Row 1:
- Row 2:

Finger turn (left / looking down)

Handwritten symbols for finger turns (right & left, looking down) arranged in two rows:

- Row 1:
- Row 2:

Finger turn (right & left / looking down)

Handwritten symbols for finger turns (right, looking up) arranged in two rows:

- Row 1:
- Row 2:

Finger Turn Comment

Finger turning may coincide with finger moving,
but perhaps more of an emphasis on rotational motion.
Finger turning may happen over a pivotal point where the finger is attached.

Fingers may pivot over 2 axes:

- Forward up and down
- Sideways facing you (finger wagging)

The thumb may pivot over another 3rd axis (depending on orientation):

- Sideways oriented up and down

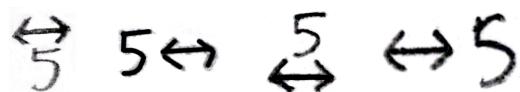

The fingers might not make full rotations, but partial rotation arcs.

Finger wagging may be aided by the friction of the other fingers on the key bed.

Finger Spread

Moving fingers wider away from each other stretching.

Finger spread (with number)

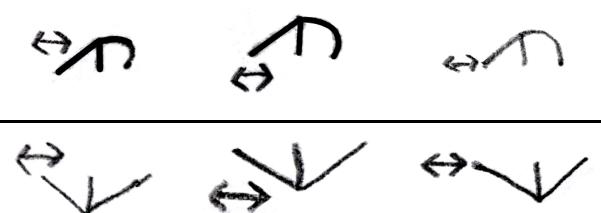

Finger spread (with symbol)

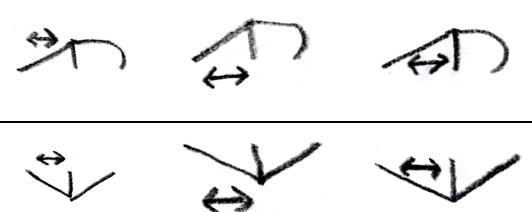

Finger spread (between finger numbers)

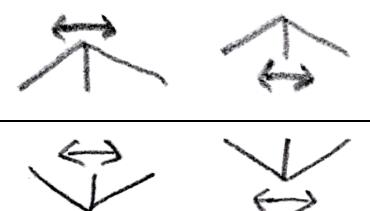

Finger spread (3 fingers, left finger)

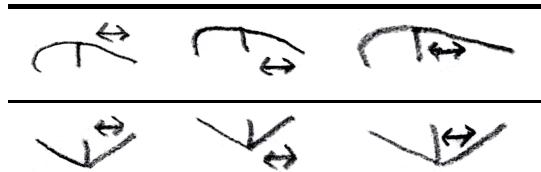

Finger spread (3 finger / between left / middle finger)

Finger spread (3 finger / middle finger)

Finger spread (3 fingers / between middle / right finger)

Finger spread (3 fingers / right finger)

Finger Stress

Tense all around, keeping stationary with force.

Tight Fingers	Loose Fingers
>5<	'5'
5	5
>6<	'6'
6	6
>789,789	
789,789	
789,789	

Composite examples:

Finger Enunciation

	Move fingers restfully
	Move fingers slightly

Move fingers normally

Move fingers exaggerated

Finger Switch

Switch finger (in place)

Part of existing fingering notation.

Switch finger (at different times)

At different times same key with different fingers.

Wrist

Wrist Position

With flat fingers

Pronounced

Curved

High

Tilted (flat fingers)

Tilted (pronounced)

Tilted (curved)

Tilted (high)

Wrist Stationary

Stationary (left-right)

Stationary (forward / backward)

Stationary (up / down)

Stationary (composite)

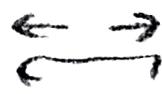

Wrist Move

Wrist move (left)

Wrist move (right)

Wrist move (right and left)

	Wrist move (down)		Wrist move (up / down)		Wrist move (up)
	Wrist move (forward)		Wrist move (backward)		Wrist move (forward / backward)

(These one-sided wrist moves may be similar to wrist turning:)

	Wrist move (down / left side)		Wrist move (up / left side)		Wrist move (up / down / left side)
	Wrist move (down / right side)		Wrist move (up / right side)		Wrist move (up / down / right side)
	Wrist move (forward / right side)		Wrist move (backward / right side)		Wrist move (forward / backward / right side)
	Wrist move (forward / backward / left side)		Wrist move (backward / left side)		Wrist move (forward / backward / left side)

A composite, to show some flexibility:

Wrist move (composite)

Wrist Press

May be usually downward, not likely in other directions.

	Wrist press (variation 1)		Wrist press (variation 2)
	Wrist press (right)		Wrist press (left)

Wrist Turn

Wrist turn (right / looking forward / 'pivot')					
Wrist turn (left / looking forward / 'pivot')					

wrist turn (right & left / looking forward / 'pivot')					
wrist turn (right / looking down)					
wrist turn (left / looking down)					
wrist turn (right & left / looking down)					
Wrist turn (forward) / 'flap'					
Wrist turn (backward) / 'flap'					
Wrist turn (forward and backward) / 'flap'					

Implicit Wrist Turn

Wrist symbols might be optional for wrist turning.

	Implicit wrist turn (right / looking forward / 'pivot')		Implicit wrist turn (left / looking forward / 'pivot')		Implicit wrist turn (right & left / looking forward / 'pivot')
	Implicit wrist turn (right / looking down)		Implicit wrist turn (left / looking down)		Implicit wrist turn (right & left / looking down)
	Implicit wrist turn (forward / 'flap')		Implicit wrist turn (backward / 'flap')		Implicit wrist turn (forward & backward / 'flap')

Wrist Stress

(Combined with wrist positions.)

Wrist tight (flat fingers)

Wrist loose (flat fingers)

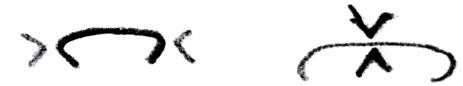

Wrist tight (pronounced)

Wrist loose (pronounced)

Wrist tight (curved)

Wrist loose (curved)

Wrist tight (high)

Wrist loose (high)

Arm

Arm Position

Arm position (forward)

Arm position (diagonal outward)

Arm position (diagonal inward)

Arm position (diagonal inward / torso in front of right hand)

Arm position (diagonal inward / far reaching)

Arm position (reaching upward)

Arm position (slanting)

Arm position (inward / elbow out)

Arm position (forward / elbow out)

Arm position (forward / elbow tucked in)

Arm position (rather unusual / upper arm forward, lower arm straight inward)

Arm position (rather unusual / upper arm forward, lower arm inward / backward)

Torso

Torso (+ arms)

Torso sway (right)

Torso sway (left)

Torso tilt forward

Torso tilt backward

Torso turn sideways (back and legs)

Some Fingers Deeper In Keys

3 fingers:

	Flat Fingers	Pronounced Fingers	Curved Fingers
--	---------------------	---------------------------	-----------------------

Mid finger deeper in keys**Outer fingers deeper in keys****Right finger deeper in keys**

4 fingers:

Flat / outer fingers deeper in keys

Curved / outer fingers deeper in keys

Curved / 3rd finger deeper in keys

Composite Examples

To demonstrate some possibilities for flexibility.

Fall in and then raise out of key

3 fingers: flat, pronounced and curved

Curved wrist flapping, mid finger pressed

Curved wrist hopping. 1st and last note pressed. Middle note moved forward, pressed with 3rd finger.
