## Piano Motion Symbols

### Introduction

This is an idea for a notation for that might extend fingering notation from just numbers to additional symbols, indicating how the hands and body might move.

I hope this might help create awareness of the body and help with piano technique.

Piano playing may involve:

- position, move, spread, turn, press, stress or hold stationary
- fingers, wrist, arm and torso
- in x, y or z directions.

Not all body parts or motions seem equally involved.

These symbols aim to be a quite literal representation of body and motion, while still schematic and hopefully not ambiguous.

### Basic Elements

---

	Finger		Move		Press
	Fingers		Spread		Loose
	Wrist		Turn		Tight
	Torso / arms		Stationary		Slightly (braces)

---

### Three Dimensions

Depicting things in 3 dimensions, the symbols may be like looking down at the hands in a sort of perspective projection. To represent depth, diagonal lines might be used. Here is how some things might work in 3 dimensions:

Move left / right

Turn right &amp; left / looking down

Move forward / backward

Turn forward / backward

Move down

Turn right &amp; left / looking forward

Move up

## Up / Down With Curled Lines

Diagonal directions seem to matter for arm positions. In that case diagonal lines might not be available for up/down directions. Instead bent lines might be used for up and down. It may represent the curve, that the arm appears to have in those positions.

Up = curled out

Down = curled in

Small curl = 1D direction (up / down)

1/2 curl = 2D diagonal (forward-up)

1/4 curl = 3D diagonal (forward-up-out)

## Turning

Turn right  
(looking down)

Turn left  
(looking down)

Turn right  
(looking forward)

Turn left  
(looking forward)

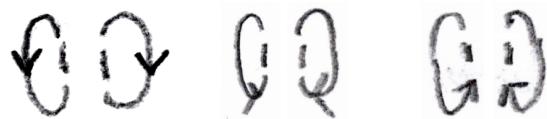

Turn left / right  
(looking forward)

Turn forward

Turn backward

Turn forward / backward

The dashed line may depict it being further away.

### Turning Arc

Nuance

Nuance, like press *a little* or move *a lot*, may be written down like this:

	<b>Restfully</b>	<b>Slightly</b>	<b>Normally</b>	<b>Exaggerated</b>
<b>Press</b>	↖	(↖)	↖	↖
<b>Move</b>	↖	(↖)	↖	↖
<b>Tight Wrist</b>	⟩↖↖<	(⟩↖↖<)	⟩↖↖><	⟩↖↖><
<b>Loose Wrist</b>	'↖'	('↖')	'↖'	"↖"

Tension & Release

→	Reach sideways	Then let go, move hand back.
↖	Reach sideways	Then let go, move hand back.
↖ ↗	Spread	Spreading fingers wider. But trying to release soon.
↑	Reach forward	If arpeggiated, might prefer crossing over instead.

---

	Reach backward	If arpeggiated, might prefer crossing over instead.
	Spread diagonally	Composite of spread sideways and reach forward.
	Arm press down	Pressure coming out of the arm.
	Hand resting on keys	
	Hand resting on lap	

## Jumps

---

	Hand upward (right view)	
	Hand upward (left view)	
	Gravity assist (right view)	Falling down with gravity.
	Gravity assist (left view)	Falling down with gravity.
	Bowy jump (sideways)	
	Controlled jump (sideways)	Though grace might desire a bowy move, a jump may be rather big, and might need some control, so perhaps move toward first, then press.

## Cross Over

May feel semi-smooth.

---

	Cross over (large)		Thumb under finger / right hand		With wrist turn (thumb under finger / right hand)
	Cross over (small)		Finger over thumb / right hand		With wrist turn (finger over thumb / right hand)
			Thumb under finger / left hand		With wrist turn (thumb under finger / left hand)
			Finger over thumb / left hand		With wrist turn (finger over thumb / left hand)

## Fingers

### Finger Position

	<b>Curved / High Fingers</b>	<b>Pronounced Fingers</b>	<b>Flat Fingers (Upward)</b>	<b>Flat Fingers (Downward)</b>
<b>1 Finger (Left)</b>	↙	↖	↘	↗
<b>1 Finger (Right)</b>	↗	↖	↙	↘
<b>2 Fingers</b>	○	▽	▽	△
<b>3 Fingers</b>	△	▽▽	▽	△
<b>4 Fingers</b>	△△	▽▽▽	▽▽	△△
<b>5 Fingers</b>	△△△	▽▽▽▽	▽▽▽	△△△

### Fingers Stationary

	<b>Curved / High</b>	<b>Pronounced</b>	<b>Flat</b>	<b>Number</b>
Fingers Stationary (left / right / 1 finger)	17/	17/	17/	141
Fingers Stationary (left / right / 3 fingers)	1m/	1m/	1m/	
Fingers Stationary (up / down / 1 finger)	?	?	?	4
Fingers Stationary (up / down / 3 fingers)	13	13	13	
Fingers Stationary (forward / backward / 1 finger)	?	?	?	4
Fingers Stationary (forward / backward / 3 fingers)	13	13	13	

### Finger Move

Finger move (right)

---

 $\rightarrow \overline{m} \leftarrow \overline{m} \rightarrow m \leftarrow \overline{m} \rightarrow \overline{m} \rightarrow m \rightarrow \overline{m}$ 

Finger move (left)

---

 $\begin{matrix} \overline{3} & 3\leftarrow & \overline{3} & \leftarrow 3 & \overline{5} & 5\leftarrow & \overline{5} & \leftarrow 5 \end{matrix}$ 

---

 $\leftarrow \overline{m} \leftarrow \overline{m} \leftarrow m \leftarrow \overline{m} \leftarrow \overline{m} \leftarrow m \leftarrow \overline{m}$ 

Finger move (right / left)

---

 $\begin{matrix} \leftarrow \overline{3} & 3\leftarrow \rightarrow & \overline{3} \leftrightarrow & \leftarrow \rightarrow 3 & \leftarrow \rightarrow 3 \rightarrow & \leftarrow \overline{5} \rightarrow & 5\leftarrow \rightarrow & \leftarrow \overline{5} \leftrightarrow \end{matrix}$ 

---

 $\leftarrow \overline{m} \leftarrow \overline{m} \leftarrow m \leftarrow \overline{m} \leftarrow \overline{m} \leftarrow \overline{m} \leftarrow m \leftarrow \overline{m}$ 

Finger move (forward)

---

 $\begin{matrix} \overline{3} & 3\uparrow & \overline{3} \uparrow & \overline{1} 3 & \overline{1} 3 & \overline{5} & 5\uparrow & \overline{5} & 1\overline{5} \end{matrix}$ 

---

 $\overline{3} \uparrow \overline{3} \uparrow m \uparrow \overline{3} \uparrow \overline{3} \uparrow 3\uparrow m\uparrow \overline{3}\uparrow$ 

Finger move (backward)

---

 $\downarrow \overline{3} \downarrow 3\downarrow \overline{3} \downarrow \downarrow 3 \downarrow \overline{5} \downarrow \leftarrow \downarrow 5 \downarrow$ 

---

 $\overline{3} \downarrow \overline{3} \downarrow \downarrow m \downarrow \overline{3} \downarrow \overline{3} \downarrow \overline{3} \downarrow m\downarrow \overline{3}\downarrow$ 

Finger move (forward / backward)

---

 $\begin{matrix} \uparrow \overline{3} & 3\uparrow \downarrow & \overline{3} \uparrow \downarrow & \uparrow \overline{3} & \downarrow \overline{3} & \uparrow \overline{3} \downarrow & \overline{5} \uparrow \downarrow & \overline{5} \uparrow \downarrow & \overline{5} \uparrow \downarrow \end{matrix}$ 

---

 $\overline{3} \uparrow \overline{3} \downarrow \overline{3} \uparrow \overline{3} \downarrow \overline{3} \uparrow \overline{3} \downarrow \overline{3} \uparrow \overline{3} \downarrow$ 

Finger move (down)

---

 $\begin{matrix} \overline{3} & 3\downarrow & \overline{3} \downarrow & \downarrow 3 & \overline{3} & 3\downarrow & \overline{3} \downarrow & \downarrow 3 \end{matrix}$ 

---

 $\overline{5} \downarrow \overline{5} \downarrow \overline{5} \downarrow \overline{5} \downarrow \overline{5} \downarrow \overline{5} \downarrow \overline{5} \downarrow$

---

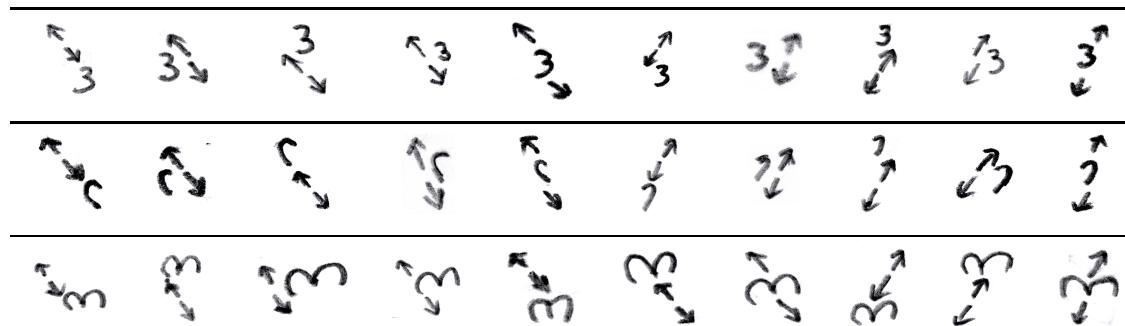

Finger move (up)

---

Finger move (up / down)

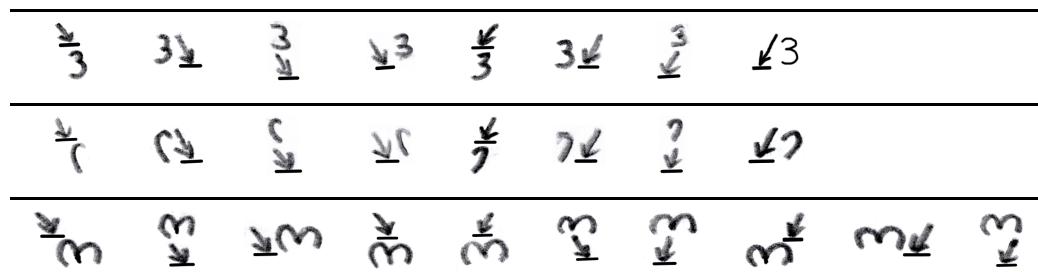

---

### Finger Press

May be usually downward, not likely in other directions.

---

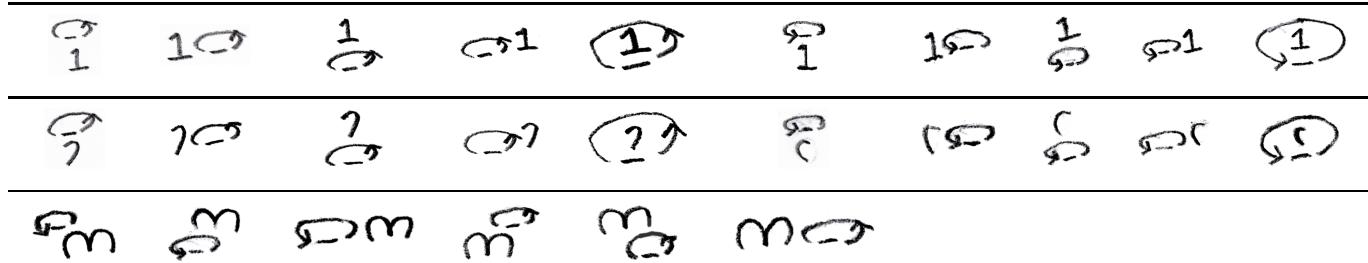

### Finger Turn

Finger turn (right / looking forward / thumb only)

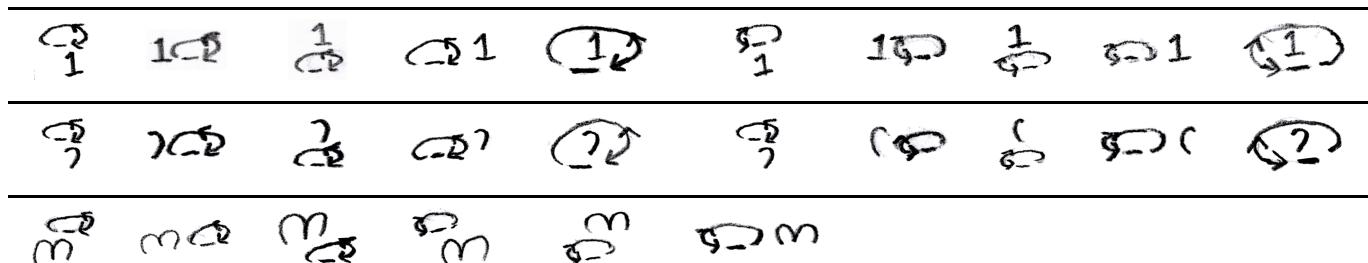

---

Finger turn (left / looking forward / thumb only)

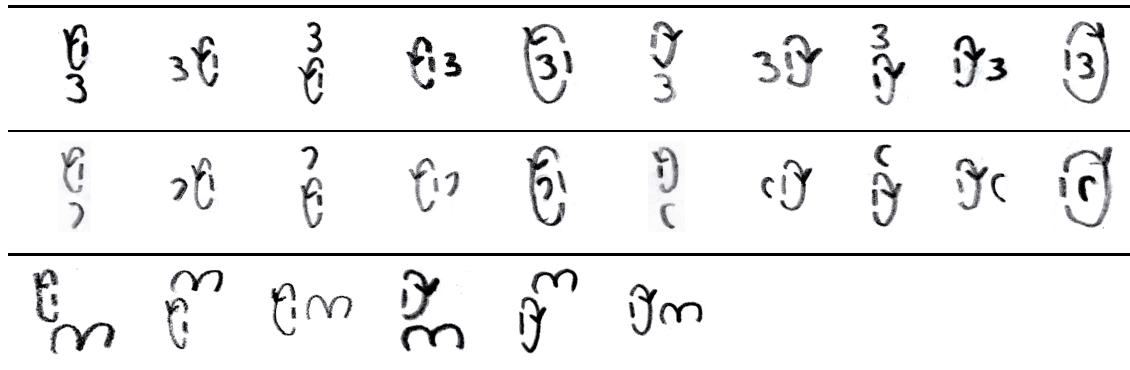

Finger turn (right & left / looking forward / thumb only)

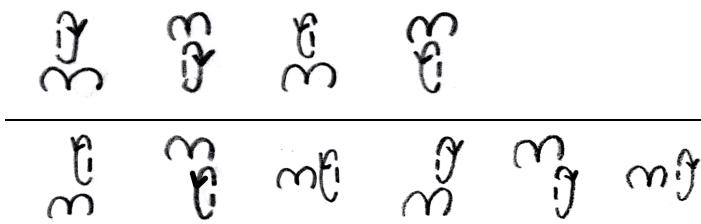

Finger turn (forward)

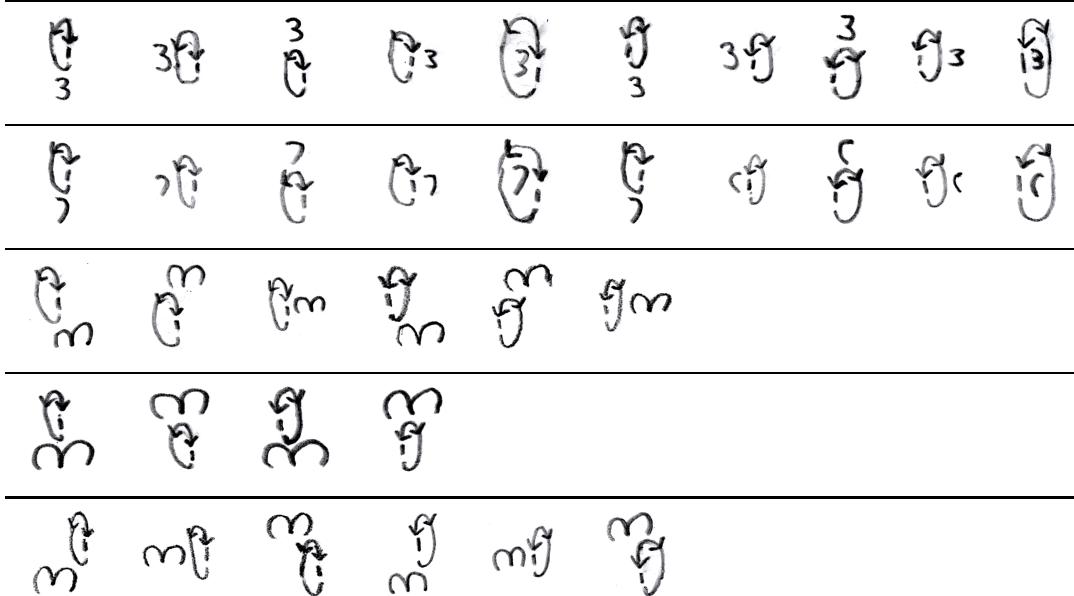

Finger turn (backward)

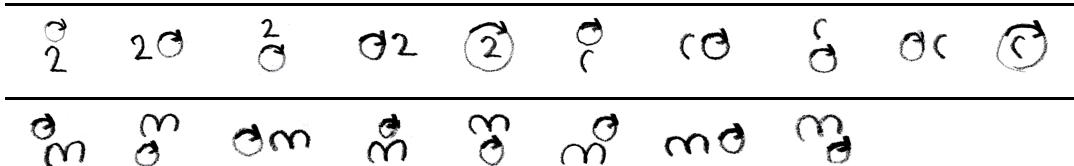

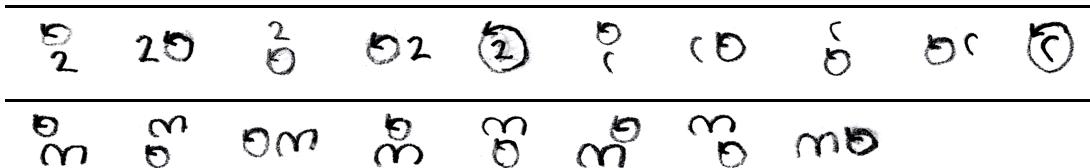

Finger turn (forward / backward)

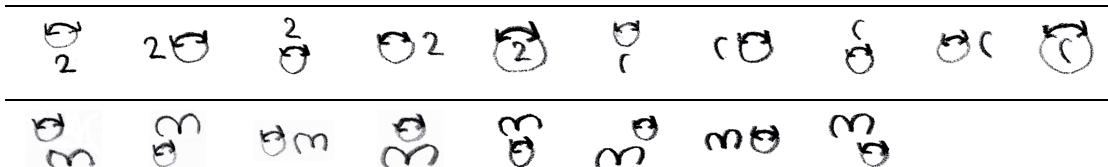

Finger turn (right / looking down)

Finger turn (left / looking down)

Finger turn (right &amp; left / looking down)

**Finger Turn Comment**

Finger turning may coincide with finger moving,  
but perhaps more of an emphasis on rotational motion.  
Finger turning may happen over a pivotal point where the finger is attached.

Fingers may pivot over 2 axes:

- Forward up and down
- Sideways facing you (finger wagging)

The thumb may pivot over another 3rd axis (depending on orientation):

- Sideways oriented up and down

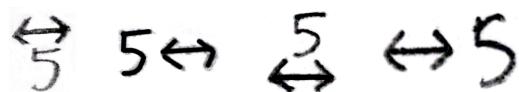

The fingers might not make full rotations, but partial rotation arcs.

Finger wagging may be aided by the friction of the other fingers on the key bed.

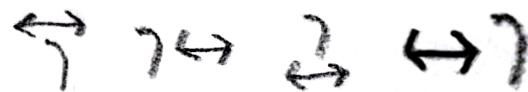

## **Finger Spread**

Moving fingers wider away from each other stretching.

*Finger spread (with number)*

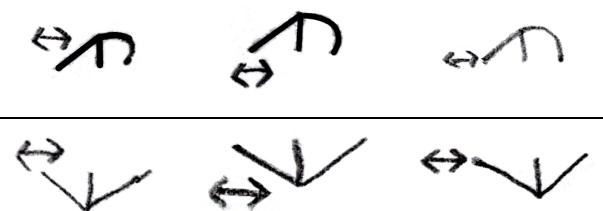

*Finger spread (with symbol)*

*Finger spread (between finger numbers)*

*Finger spread (3 fingers, left finger)*

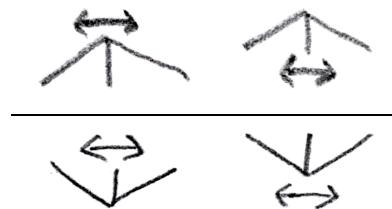

*Finger spread (3 finger / between left / middle finger)*

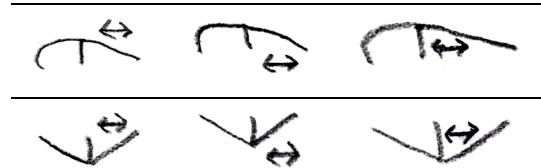

*Finger spread (3 finger / middle finger)*

*Finger spread (3 fingers / between middle / right finger)*

*Finger spread (3 fingers / right finger)*

## **Finger Stress**

Tense all around, keeping stationary with force.

Tight Fingers	Loose Fingers
>5<	'5'
၅	၅
>၄<	'၄'
၄	၄
ကာဗ္ဗာ ကာဗ္ဗာ	
ကာဗ္ဗာ ကာဗ္ဗာ	

**Tight Fingers****Loose Fingers**

Composite examples:

**Finger Enunciation**

Move fingers restfully

Move fingers slightly

Move fingers normally

Move fingers exaggerated

**Finger Switch**

Switch finger (in place)

Part of existing fingering notation.

Switch finger (at different times)

At different times same key with different fingers.

**Wrist****Wrist Position**

With flat  
fingers

Pronounced

Curved

High

Tilted (flat  
fingers)

Tilted  
(pronounced)

Tilted  
(curved)

Tilted  
(high)

**Wrist Stationary**

	Stationary (left-right)		Stationary (forward / backward)		Stationary (up / down)		Stationary (composite)
--	----------------------------	--	------------------------------------	--	---------------------------	--	---------------------------

**Wrist Move**

	Wrist move (left)		Wrist move (right)		Wrist move (right and left)
	Wrist move (down)		Wrist move (up / down)		Wrist move (up)
	Wrist move (forward)		Wrist move (backward)		Wrist move (forward / backward)

(These one-sided wrist moves may be similar to wrist turning: )

	Wrist move (down / left side)		Wrist move (up / left side)		Wrist move (up / down / left side)
	Wrist move (down / right side)		Wrist move (up / right side)		Wrist move (up / down / right side)
	Wrist move (forward / right side)		Wrist move (backward / right side)		Wrist move (forward / backward / right side)
	Wrist move (forward / backward / left side)		Wrist move (backward / left side)		Wrist move (forward / backward / left side)

A composite, to show some flexibility:

Wrist move (composite)

## **Wrist Press**

May be usually downward, not likely in other directions.

Wrist press (variation 1)

Wrist press (variation 2)

Wrist press (right)

Wrist press (left)

## **Wrist Turn**

Wrist turn

(right / looking forward / 'pivot')

Wrist turn

(left / looking forward / 'pivot')

wrist turn

(right & left / looking forward / 'pivot')

wrist turn

(right / looking down)

wrist turn

(left / looking down)

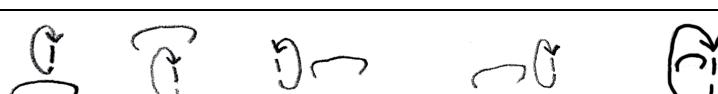

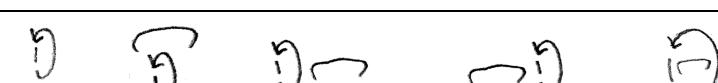

wrist turn

(right & left / looking down)

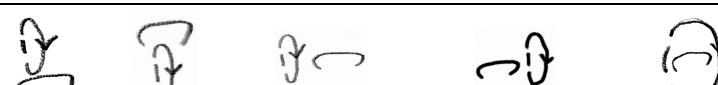

Wrist turn

(forward) / 'flap'

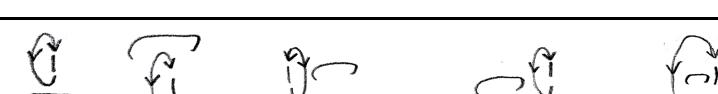

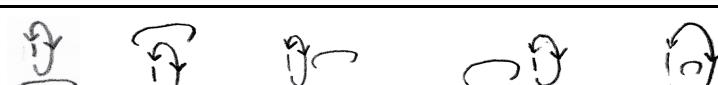

Wrist turn

(backward) / 'flap'

Wrist turn

(forward and backward) / 'flap'

## **Implicit Wrist Turn**

Wrist symbols might be optional for wrist turning.

	Implicit wrist turn (right / looking forward / 'pivot')		Implicit wrist turn (left / looking forward / 'pivot')		Implicit wrist turn (right & left / looking forward / 'pivot')
	Implicit wrist turn (right / looking down)		Implicit wrist turn (left / looking down)		Implicit wrist turn (right & left / looking down)
	Implicit wrist turn (forward / 'flap')		Implicit wrist turn (backward / 'flap')		Implicit wrist turn (forward & backward / 'flap')

## Wrist Stress

(Combined with wrist positions.)

Wrist tight (flat fingers)	
Wrist loose (flat fingers)	
Wrist tight (pronounced)	
Wrist loose (pronounced)	
Wrist tight (curved)	
Wrist loose (curved)	
Wrist tight (high)	
Wrist loose (high)	

Arm

## Arm Position Suggestions

Arm position (diagonal in / torso in front of right hand)

Arm position (diagonal in / far reaching)

Arm position (forward / elbow tucked in)

Arm position (rather unusual / upper arm forward, fore arm straight in)

Arm position (rather unusual / upper arm forward, fore arm in / backward)

## Lower Arm

### **Lower Arm Position**

The *upper arm* is assumed to be hanging downward.

*Lower arm 1D directions:*

Forward

Up

Down

In

Out

*Lower arm 2D-diagonals:*

Forward-up

Forward-down

Forward-in

Forward-out

Up-out

Down-out

Up-in

Down-in

*Lower arm 3D-diagonals:*

Forward-up-in

Forward-up-out

Forward-down-in

Forward-down-out

*Lower arm backward:*

Backward

Backward-out

Backward-in

Backward-down		Backward-up	
Backward-down-out		Backward-down-in	
Backward-up-out		Backward-up-in	

## Upper Arm

### Upper Arm Positions

Upper arm 1D directions:

Upper arm up (lower arm up)		Upper arm down (lower arm forward)	
Upper arm in (lower arm up)		Upper arm out (lower arm out)	
		(lower arm forward)	
Upper arm forward (lower arm forward)		Upper arm backward (lower arm down)	

(lower arm backward)

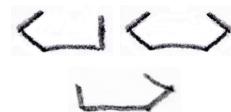

Upper arm 2D-diagonals:

Upper arm up-out (lower arm up-out)		(lower arm down-out)	
Upper arm up-in (lower arm up-in)		(lower arm in)	
Upper arm forward-down (lower arm forward-up)		(lower arm forward-down)	
Upper arm forward-up (lower arm forward-up)		(lower arm down)	
Upper arm forward-in (lower arm forward-in)		(lower arm in)	

Upper arm *forward-out*  
(lower arm forward)

(lower arm forward-in)

Upper arm *3D-diagonals*:

Upper arm *forward-up-in*  
(lower arm forward-up-in)

Upper arm *forward-down-in*  
(lower arm forward-in)

Upper arm *forward-up-out*  
(lower arm forward)

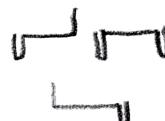

Upper arm *forward-down-out*  
(lower arm forward)

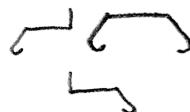

Upper arm *backward*:

Upper arm *backward*  
(lower arm forward)

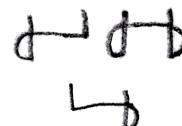

Upper arm *backward-out*  
(lower arm down)

Upper arm *backward-in*  
(lower arm in)

Upper arm *backward-down*  
(lower arm forward)

Upper arm *backward-up*  
(lower arm down)

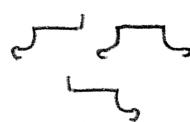

Upper arm *backward-down-out*  
(lower arm down)

Upper arm *backward-down-in*  
(lower arm down)

Upper arm *backward-up-out*  
(lower arm down)

Upper arm *backward-up-in*  
(lower arm backward-up-in)

Torso

Torso (+ arms)

Torso sway (right)

Torso sway (left)

Torso tilt forward

Torso tilt backward

Torso turn sideways (back and legs)

## Some Fingers Deeper In Keys

3 fingers:

	<b>Flat Fingers</b>	<b>Pronounced Fingers</b>	<b>Curved Fingers</b>
<b>Mid finger deeper in keys</b>	↑	↗	⌞
<b>Outer fingers deeper in keys</b>	↗	↖	⌞
<b>Right finger deeper in keys</b>	↖	↖	⌞

4 fingers:

Flat / outer fingers deeper in keys

Curved / outer fingers deeper in keys

Curved / 3rd finger deeper in keys

## Composite Examples

To demonstrate some possibilities for flexibility.

Fall in and then raise out of key

3 fingers: flat, pronounced and curved

Curved wrist flapping, mid finger pressed

Curved wrist hopping. 1st and last note pressed. Middle note moved forward, pressed with 3rd finger.
